Award Amount	\$5,000 – \$50,000
Deadline	Rolling
Description	<p>Women make up half of the world's population and yet represent 70% of the world's poor. For the millions of women living in poverty, their lives are filled with of injustice, discrimination, violence, and obstacles, which prevent them from meeting their basic needs of good health, education and employment. The hardships experienced by these women in poverty also affect their children continuing the cycle of poverty. These children experience fewer opportunities, poor health and lack access to education or job training.</p> <p>I [the Kathryn McQuade Foundation] believe that by focusing assistance on women and children, everyone in the world community will benefit. Providing women with financial aid, job training, education and small business assistance will enable them to rebuild their lives and sustain the advancements to their lives and the lives of their children. Also, providing access to education and beneficial job training to these children will assist the families who struggle to meet these needs</p> <p>Studies continue to show that when women command greater power, education and wealth, children's health and nutrition improves, communities prosper and terrorism and violence declines.</p>

Funding Source	Kathryn B McQuade Foundation
Funder Mission	<p>The Foundation was established in December 2013 by Kathryn B. McQuade, after retiring from 33 years of working in the business community. I was blessed to have been born into a loving middle class family. My father worked very hard to ensure that all of his children were given an opportunity for a good education and my mother, “a stay at home mom” was always there for us. My world was safe and comfortable. My life is in stark contrast to how much of the rest of the world lives.</p> <p>I continue to read of the terrible injustices waged against women and children globally and hope that this foundation can provide them the opportunity and resources to succeed. We will support organizations that help us achieve our goal of Striving to make sustainable improvements in women’s and children’s rights education and welfare.</p>
